

Orange Travel Daily Data Business

On the 4th March Orange will launch Orange Travel Daily Data Business

Orange Travel Daily Data Business is a single roaming bundle that customers can opt into when they subsequently roam in zones 1 & 2. The roaming bundle is automatically applied giving them 50mb of data.

For a cost of £7 (ex vat) per day for 50mb , all business customers can opt into receiving this bundle via enable or by calling business customer services.

This is an additional bundle. The only change to the existing offer is that customers will not be able to add this bundle to a subscription if they have a data or roaming bundle or an Orange Business World Traveller. Customers can cancel other roaming bundles subject to existing business rules.

If you have any questions, please feel free to contact your Orange Key Account Manager.
